Certain footnote disclosures normally included in the financial statements have been omitted pursuant to 2010 NAIC Life, Accident & Health Quarterly Statement instructions. Therefore, these financial statements should be read in conjunction with the financial statements contained in the 2009 annual statement.

A. Accounting Practices

The financial statements of the Independence Life and Annuity Company (“the Company”) are presented on the basis of accounting practices prescribed or permitted by the Rhode Island Insurance Division.

The Rhode Island Insurance Division recognizes only statutory accounting practices prescribed or permitted by the State of Rhode Island for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Rhode Island Insurance Division Law. The National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures manual (“NAIC SAP”), has been adopted as a component of prescribed or permitted practices by the State of Rhode Island. As of March 31, 2010 and December 31, 2009, the Commissioner has not permitted the Company to use any accounting practices that would result in the Company’s earnings or financial position to deviate materially from NAIC SAP.

D. Loan-Backed Securities

(1) The fair values of publicly traded debt securities are based on third party pricing services, independent broker quotes, pricing matrices, or models and other sources, including statement value. For private placements, fair values are estimated using matrices which take into account credit spreads for publicly traded securities of similar credit risk, maturity, prepayment, and liquidity characteristics.

The following table presents the carrying amounts and estimated fair values of the Company’s loan-backed securities:

(In Thousands)	March 31, 2010		December 31, 2009	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Loan-Backed Securities	\$ 1,694	\$ 1,628	\$ 1,704	\$ 1,585

(2) Prepayment assumptions for single class and multi-class mortgage-backed/asset-backed securities were obtained from broker dealer survey values or internal estimates.

(3) Exposure to any single issuer is less than 10% of net admitted assets.

(4) There were no other-than-temporary impairments recorded for loan-backed securities during 2010.

(5) There were no other-than-temporary impairments recorded for loan-backed securities during 2010.

NOTES TO FINANCIAL STATEMENTS

(6) The gross unrealized losses and fair value of loan-backed securities which have been deemed temporarily impaired and length of time that securities have been in an unrealized loss position are as follows:

(In Thousands)	March 31, 2010		December 31, 2008	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Less than 12 months			\$ 499	\$ (1)
12 months or more	402	(95)	867	(131)
Total	\$ 402	\$ (95)	\$ 1,366	\$ (132)

(7) Effective July 1, 2009, the Company recognizes and measures OTTI for structured securities in accordance with SSAP No. 43R. In accordance with SSAP No. 43R, if the fair value of a structured security is less than its amortized cost basis at the balance sheet date, the Company assesses whether the impairment is OTTI. When an OTTI has occurred, the amount of OTTI recognized in earnings is the difference between the amortized cost basis of the security and the present value of its expected future cash flows discounted at the effective interest rate implicit in the security.

If the Company intends to sell the structured security, or it is more likely than not that it will be required to sell the security before recovery of its amortized cost basis, an OTTI is considered to have occurred. The amount of the OTTI recognized in earnings is the difference between the amortized cost basis and the fair value of the security at the time of sale.

If the Company does not intend to sell the structured security, or it is less likely than not that it will be required to sell the security before recovery of its amortized cost basis, the Company performs cash flow based testing to determine if the present value of its expected future cash flows discounted at the effective interest rate implicit in the security is less than its amortized cost basis. Estimating future cash flows is a quantitative and qualitative process that incorporates information received from third parties, along with assumptions and judgments about the future performance of the underlying collateral. Losses incurred on the respective portfolios are based on expected loss models, not incurred loss models. Expected future cash flows include assumptions about key systematic risks and loan-specific information.

NOTES TO FINANCIAL STATEMENTS

9. Income Taxes

The application of SSAP No. 10R requires a company to evaluate the recoverability of deferred tax assets and to establish a valuation allowance if necessary to reduce the deferred tax asset to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. Although the realization is not assured, management believes it is more likely than not that the deferred tax assets will be realized. Therefore, the Company has not recorded a valuation allowance as of March 31, 2010.
