(2) The Company has not elected to admit DTAs pursuant to paragraph 10e.

(3) SSAP 10R, Statutory Accounting for Income Taxes ("SSAP 10R") requires a reduction of the carrying amounts of deferred tax assets by recording a valuation allowance if, based on available evidence, it is more likely than not (defined by SSAP 10R as a likelihood of more than 50 percent) such assets will not be realized. The valuation of deferred tax assets requires judgment in assessing the likely future tax consequences of events that have been recognized in our financial statements or tax returns and future profitability.

In assessing the need for a valuation allowance, we consider both positive and negative evidence related to the likelihood of realization of the deferred tax assets. If, based on the weight of available evidence, it is more likely than not the deferred tax assets will not be realized, we record a valuation allowance. The weight given to the positive and negative evidence is commensurate with the extent to which the evidence may be objectively verified.

Prior year and future expected taxable income represent sufficient positive evidence under SSAP 10R and accordingly, no valuation allowance was recorded against the deferred tax assets.

(4) The company does not utilize tax planning strategies to admit any DTA at this time.
