ARTICLE I

1.0 INTRODUCTION, PURPOSE, FINDING

1.1 Introduction

Section 5-3.1-4(f) of the Rhode Island General Laws authorizes the Board of Accountancy to promulgate rules and regulations of professional conduct for establishing and maintaining high standards of competence and integrity in the profession of public accounting as well as rules and regulations establishing requirements of continuing education to promote the professional competence of holders of permits to practice under § 5-3.1-7. Section 5-3.1-7(c) of the Rhode Island General Laws authorizes the Board of Accountancy to promulgate regulations relating to the requirements for continuing professional education for any person seeking an annual permit in accordance with that section.

1.2 Purpose

The purpose of these regulations is to adopt the AICPA's Code of Professional Conduct to establish uniform, nationally-recognized professional standards and also to establish continuing education requirements to promote competence within the profession.
1.3 Finding

In considering the adoption of these regulations, the Board of Accountancy finds that such action would not have a significant adverse impact on small business and that there is no alternative approach which would be as effective and less burdensome to private persons as another regulation.

ARTICLE II

2.4 In the event there is any inconsistency between the Code and the Accountancy Act, the Accountancy Act shall supersede such provisions of the Code, including, but not limited to, the prohibition against accepting a payment or commission for the recommendation or referral of products or services to or for a client. R.I. Gen. Laws § 5-3.1-16(l).

**ARTICLE IV**

4.0 **CONTINUING PROFESSIONAL EDUCATION**

4.1 Every certified public accountant (CPA) or public accountant (PA) licensed by the Board (“licensee”) shall maintain and improve his or her professional competence through a program of formal continuing professional education (CPE). As a condition precedent to being issued a permit to practice in any particular year, a licensee shall have completed not less than one hundred and twenty (120) hours or fifteen (15) days of formal CPE during the preceding three (3) year period. Licensees shall not be required to complete CPE in the calendar year in which they receive their certificate from the Board.

A. A CPE year will commence on January 1 and end on the following
December 31. A CPE day will consist of eight (8) hours of formal instruction. An instruction hour will consist of fifty (50) minutes and a half hour will consist of twenty five (25) minutes. However, for continuous conferences and conventions, when individual segments are less than (25) twenty-five minutes, the sum of the segments may be considered one total program. Non-interactive self-study shall be computed at the rate of one hundred (100) minutes per credit hour.

B. Only time in actual attendance in the CPE session will be counted. The time needed to prepare or review the subject matter will not be counted.

C. The time required by a lecturer or CPE session moderator for both preparation and presentation will be counted, if it enhances his or her professional competence as a practicing accountant. However, credit for such preparation shall not exceed two hours for each hour of presentation. Credit for such preparation and teaching shall not exceed sixty (60) CPE hours for that three year reporting period. Repeated presentations of the same subject matter will not be recognized for CPE credit. A qualified instructor or discussion leader shall have the background, training, education or experience to make it appropriate for that person to lead a discussion on the subject matter.

D. Credit may be allowed for published books and articles provided they contribute to the professional competence of the licensee. Credit for preparation of such publications shall not exceed sixty (60) CPE hours for that three year reporting period.

E. The Board of Accountancy may in its discretion, on an individual basis,
make exceptions for the required CPE time for reasons of health, military
service, foreign residence, retirement or for such other reasons as the Board
may determine reasonable.

F. Programs which qualify for CPE credit hours:

1. Educational instruction or training in (a) public accounting and
   auditing subjects, (b) technical business subjects and (c) practice
development and management skills will qualify for CPE if the
instruction is a formal program of learning that contributes directly

to enhancing the professional competence of accountants or like
professionals.

In determining eligibility of self-study courses and computing the hour value of such programs, the Board will follow the guidelines of the National Registry of CPE Sponsors. The Board will not follow the guidelines of the Quality Assurance Service.

H. The Board may, in its discretion, allow credit for interactive and non-interactive self-study programs (including taped study programs). In determining the amount of credit to be awarded the Board will consider, but not be bound by, the recommendation of the sponsoring organization; provided, however, the maximum credit for such self-study programs shall
not exceed eighty (80) CPE hours for that three year reporting period. The licensee shall be required to obtain and present to the Board evidence of satisfactory completion of the course from the program sponsor. Credit will be awarded in the calendar year in which the course is completed.

I. The Board of Accountancy may establish an advisory committee to aid it in administering the CPE program.
