Concise Summary of Proposed Non-Technical Changes

In accordance with the Administrative Procedures Act, Section 42-35-3(a)(1) of the General Laws of Rhode Island, the following is a concise summary of proposed non-technical changes that would be accomplished by the proposed amendments to the Rules and Regulations for the Board of Examination and Registration of Architects:

1. Provide for submission and acceptance of electronic signatures and seals/stamps in lieu of paper documents;
2. Authorize the Board’s administrative staff to provide initial approval of reciprocity applications prior to the Board’s next meeting if the applicant submits a record from the National Council of Architectural Registration Boards (NCARB) and does not have prior disciplinary history;
3. Provide discretion for the Board to grant applications for the restoration of an expired certificate that has lapsed for a period of 6 months to not more than two years, allowing the Board to require a brief outline of the professional activities of the applicant during the lapsed period, and, if the applicant is a non-resident, the applicant’s NCARB record;
4. Delete provisions that cover the NCARB standards for taking the Architectural Registration Exam (ARE). These standards change from time to time and are available on NCARB’s website;
5. In accordance with recent legislative changes clarifying the Board’s position within the Department of Business Regulation (“Department”), delete provisions that provide for the processing of complaints, administrative hearing procedures, declaratory rulings, petitions for rulemaking, and public records requests; replace with cross-reference to the Department’s Central Management Regulation 1 Access to Public Records, Central Management Regulation 2 Rules of Procedure for Administrative Hearings, and Central Management Regulation 3 Declaratory Rulings and Petitions;
6. Make changes based on NCARB model law and guidance, namely:
   a. provide detail to the definition of “responsible control”;
   b. update the Continuing Education provisions from a biannual to annual credit requirement (same total hours); provided updated description of Health, Safety, and Welfare Subjects recognized by NCARB; provide more expansive definition of structured education activities that can be used for credits; prohibit registrants from crediting excess credits to a future calendar year; clarify and update the recordkeeping requirements; provide process for satisfying the continuing education requirement if credits obtained are not approved by the board;
   c. provide that a person currently employed under the responsible control of an architect and who maintains an NCARB record in good standing may use the title “intern
architect” or “architectural intern” in conjunction with his/her current employment, but may not engage in the practice of architecture as defined by the statute;

d. Provide that where a conflict of interest occurs, the architect is not required to terminate the project if “the registered architect is able to cause the matter to be resolved by other means.”

e. Clarify the definition of “state” for the purposes of reciprocity to reflect that NCARB recognizes foreign jurisdictions which the Board may also choose to recognize by signing Mutual Recognition Agreements.

7. In the section providing that individuals found to be substantially impaired by physical or mental disabilities shall not be permitted to practice architecture, add the requirement that such determination can only be made following an opportunity for a hearing;

8. Delete non-essential terms providing introductory material and operating details that do not require codification; remove provisions that repeat statutory terms without adding any regulatory content;

9. Technical changes: formatting and re-numbering to be consistent with Department-wide format for rules and regulations; clarifications to the language that promote clarity without accomplishing any substantive changes; provide for gender-neutral designations; changes mandated by change in legislation.

Section 5.8 Continuing Education (C.E.)

A. Continuing education is post-licensure learning that enables a registered architect to increase or update knowledge of and competence in technical and professional subjects related to the practice of architecture to safeguard the public’s health, safety, and welfare. 5.8.1 The Board, in order to protect the public in the built environment, has enacted a continuing education requirement for the purpose of ensuring that the architecture profession remains current on health, safety, welfare and construction issues.

5.8.2 A registered architect must demonstrate continuing education activities since the date of the architect’s last renewal or initial registration, as the case may be. The Board shall by regulation describe continuing education activities acceptable to the Board and the documentation of such activities required by the Board.

5.8.3 An architect must certify on the renewal application that the architect has met the requirements of the Board. The architect must maintain records of C.E. Falsification of records will result in disciplinary action by the Board.

5.8.4 The Board may decline to renew a registration if the architect’s professional development activities do not meet the standards set forth in the Board’s regulations.

5.8.5 The Board or its Designee may randomly audit licensees to insure compliance. An architect who is audited will be notified in writing and will be required to provide written documentation of the continuing education for the two (2) year period at issue. The Board may require the architect who cannot produce such documentation to develop and complete a specific corrective action plan within 90 days, prior to approval of renewal.

B. 5.8.6 Architect must obtain 24 continuing education units (CEU’s) of which 16 must be health, safety and welfare (HSW) for the two-year renewal period. In addition to all other requirements for registration renewal, an architect must complete a minimum of 12 Continuing Education Hours each calendar year or be exempt from these continuing education requirements as provided below. Failure to comply with these requirements may result in non-renewal of the architect’s registration.

C. A Continuing Education Hour (CEH) is one continuous instructional hour (50 to 60 minutes of contact) spent in Structured Educational Activities intended to increase or update the architect’s knowledge and competence in Health, Safety, and Welfare Subjects.

1. Health, Safety, and Welfare Subjects are technical and professional subjects that the Board deems appropriate to safeguard the public and that are within the following enumerated areas necessary for the proper evaluation, design, construction, and utilization of buildings and the built environment:
a. BUILDING SYSTEMS: Structural, Mechanical, Electrical, Plumbing, Communications, Security, Fire Protection
b. CONSTRUCTION CONTRACT ADMINISTRATION: Contracts, Bidding, Contract Negotiations
c. CONSTRUCTION DOCUMENTS: Drawings, Specifications, Delivery Methods
e. ENVIRONMENTAL: Energy Efficiency, Sustainability, Natural Resources, Natural Hazards, Hazardous Materials, Weatherproofing, Insulation
f. LEGAL: Laws, Codes, Zoning, Regulations, Standards, Life Safety, Accessibility, Ethics, Insurance to protect Owners and Public
g. MATERIALS and METHODS: Construction Systems, Products, Finishes, Furnishings, Equipment
h. PRE-DESIGN: Land Use Analysis, Programming, Site Selection, Site and Soils Analysis, Surveying
i. PRESERVATION: Historic, Reuse, Adaptation

2. Structured Education Activities are educational activities in which at least 75 percent of an activity’s content and instructional time must be devoted to Health, Safety, and Welfare Subjects related to the practice of architecture, including courses of study or other activities under the areas identified as Health, Safety and Welfare Subjects and provided by qualified individuals or organizations, whether delivered by direct contact or distance learning methods.

D. If the provider of the Structured Educational Activities prescribes a customary time for completion of such an Activity, then such prescribed time shall, unless the Board finds the prescribed time to be unreasonable, be accepted as the architect’s time for Continuing Education Hour purposes irrespective of actual time spent on the activity.

E. Continuing Education Hours may be acquired at any location. The Architect may carry over one year of continuing education hours from the previous year.

F. Excess Continuing Education Hours may not be credited to a future calendar year.

G. Exemptions to Rule 5.8.6: An architect shall not be subject to these requirements if:

1. The architect has been granted emeritus/emerita status by the Board; or

2. The architect otherwise meets all renewal requirements and is a civilian called to active military service duty in the armed forces of the United States for a significant period of time, has a serious medical condition, is ill or disabled for a significant period of time, or can demonstrate to the Board other like hardship, then
upon the Board’s so finding, the architect may be excused from some or all of these requirements; or

5.8.6.2.3 The architect otherwise meets all renewal requirements and is registered in any other jurisdiction having continuing education requirements, which the architect has met, provided that the requirements of such other jurisdiction are equal to or exceed Rhode Island’s requirements.

H. 5.8.7 For the Architect’s first renewal period or fraction thereof, the continuing education requirements for renewal shall be required at the rate of one continuing education unit hour (CEU/CEH) per month of registration.

I. 5.8.8 If an architect has allowed registration to lapse in Rhode Island for more than two years, the architect shall upon application provide evidence of compliance with Rhode Island’s requirements for the lapsed period. Continued registration in an NCARB recognized jurisdiction that requires continuing education will be deemed to satisfy this requirement.

J. Reporting and Recordkeeping. An architect shall complete and submit forms as required by the Board certifying that the architect has completed the required Continuing Education Hours. Forms may be audited by the Board for verification of compliance with these requirements. Documentation of reported Continuing Education Hours shall be maintained by the architect for six years from the date of award. If the Board disallows any Continuing Education Hours the architect shall have 60 days from notice of such disallowance either to provide further evidence of having completed the Continuing Education Hours disallowed or to remedy the disallowance by completing the required number of Continuing Education Hours (but such Continuing Education Hours shall not again be used for the next calendar year). If the Board finds, after proper notice and hearing, that the architect willfully disregarded these requirements or falsified documentation of required Continuing Education Hours, the architect may be subject to disciplinary action in accordance with the Board regulations.

7.3.11 Submission of Documentary Evidence in Advance Where practicable the Board or its designated hearing officer may require:

7.3.11.1 That all documentary evidence which is to be offered during the taking of evidence be submitted to the hearing examiner and to the other parties to the proceeding sufficiently in advance of such taking of evidence to permit study and preparation of cross-examination and rebuttal evidence;

evidence in the absence of a clear showing that the offering party had good cause for his failure to produce the evidence sooner;

7.3.11.3 That the authenticity of all documents submitted in advance in a proceeding in which such submission is required, be deemed admitted unless written objection thereto is filed prior to the hearings, except that a party will be permitted to challenge such authenticity at a later time upon a clear showing of good cause for failure to have filed such written objection.

7.3.12 Excerpts from Documentary Evidence

When portions only of a document are to be relied upon, the offering party shall prepare the pertinent excerpts, adequately identified, and shall supply copies of such excerpts, together with a statement indicating the purpose for which such materials will be offered to the Board and to the other parties. Only the excerpts, so prepared and submitted, shall be received in the record. However, the whole of the original document shall be made available for examination and for use by all parties to the proceeding.

7.3.13 Continuances

Such oral notice shall constitute final notice of such continued hearing.

The Board will act on all such requests as quickly as possible. Where time does not permit the full Board to meet and consider the request, the Chairman of the Board may grant the request for a continuance for a period of not more than forty days. All requests for rescheduling must be approved by a majority of the Board.

7.3.14 Rules of Evidence

7.3.14.1 Subject to other provisions of these Rules, all relevant evidence is admissible which, in the opinion of the Board, is the best evidence reasonably obtainable having due regard for its necessity, availability and trustworthiness. The Board
shall consider the relevance of the evidence and fairness of admitting evidence when making rulings on admissibility. In passing upon the admissibility of evidence, the Board shall give consideration to, but shall not be bound to follow, the Rules of evidence governing civil proceedings, in matters not involving trial by jury, in the superior court of the State of Rhode Island.

7.3.14.2 When objection is made to the admissibility of evidence, such objection will be noted for the record and such evidence may be received subject to a later ruling. The Board may, in its discretion, either with or without objection, exclude inadmissible evidence or order cumulative evidence discontinued. Parties objecting to the introduction of evidence shall state the precise grounds of such objection at the time such evidence is offered.

7.3.14.3 Evidence will not be admitted, if after it is proffered, a majority of the Board votes against its admission.

7.3.15 Stenographic Report of Evidence

An electronic record shall be made of every hearing or contested case before the Board. 2.8.1.2 In designing a project, an registered architect shall take into account all applicable state and municipal building laws and regulations. If the client or employer objects to such association or financial interest, the registered architect will either terminate such association or interest or offer to give up the commission or employment.

8.3.2.3 c. in circumstances where the registered architect reasonably believes that other such decisions will be taken, notwithstanding his/her their objection, terminate their his/her services with respect to the project unless the registered architect is able to cause the matter to be resolved by other means. In the case of a termination in accordance with this subsection, the registered architect shall have no liability to their his/her client or employer on account of such termination.

4.8.3.3 An registered architect shall not deliberately make a materially false statement or fail deliberately to disclose accurately and completely a material fact requested in connection with his/her their application for a registration or renewal thereof or otherwise lawfully requested by the Board.

5.8.3.4 An registered architect shall not assist the application for registration of an individual known by the registered architect to be unqualified in respect to education, training, experience or character.
