Note 1 - Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of the Amica Property and Casualty Insurance Company (the Company) have been prepared on the basis of accounting practices prescribed or permitted by the state of Rhode Island.

The state of Rhode Island requires insurance companies domiciled in the state of Rhode Island to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the state of Rhode Island Department of Business Regulation Insurance Division. The Company has no state prescribed adjustments to report; however, the Company does have the state permitted practice as detailed below.

Effective June 2020, the Rhode Island Department of Business Regulation Insurance Division approved a permitted accounting practice to classify COVID-19 relief funds as dividends paid to policyholders. This treatment contrasts that of *INT 20-08: COVID-19 Premium Refunds, Limited-Time Exception, Rate Reductions and Policyholder Dividends*, which mandates such relief funds be treated as reductions to premium, with a limited-time exception for treatment as other underwriting expense under specific conditions, for which the Company does not qualify.

In both 2020 and 2021, the Company returned a portion of its profits to policyholders through its COVID-19 Financial Relief Program under this permitted practice; however, no disbursements are planned in 2022.

A reconciliation of the Company's net income and capital and surplus between NAIC statutory accounting practices (NAIC SAP) and practices prescribed and permitted by the state of Rhode Island as of March 31, 2022 and December 31, 2021 is shown below:

B. Debt Restructuring

No change.

C. Reverse Mortgages

- D. Loan-Backed Securities
 - Prepayment assumptions for single-class and multi-class mortgage-backed and asset-backed securities were obtained from broker-dealer survey values, nationally recognized data services or internal estimates. The Company uses ICE Data Services to update prepayment assumptions quarterly and to determine the market value of its loan-backed securities. In 2022, there were no changes from retrospective to prospective methodologies.
 - 2-3. The Company did not write down any loan-backed securities during the period.
 - 4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):
 - a. The aggregate amount of unrealized losses:

 1. Less than 12 Months
 \$ 883,116

 2. 12 Months or Longer
 \$ 149,539

b. The aggregate related fair value of securities with unrealized losses:

 1. Less than 12 Months
 \$ 18,621,361

 2. 12 Months or Longer
 \$ 1,732,353

- 5. All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by an analysis of the underlying credit of each security. Unrealized losses are primarily attributable to higher interest rates, faster prepayment speed assumptions and modestly wider spread levels. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities, if future events, information and the passage of time cause it to conclude that declines in the value are other-than-temporary.
